

2771-514

Section II (Remarks)

A replacement Figure 1 is enclosed herewith, wherein the reference 22 has been added to the lid of the vaporizer depicted in such drawing. Such amendment is consistent with and supported by the originally filed application, which at page 9, lines 5-6, referring to "sealing the vaporizer with sealing lid 22." See also the disclosure at page 10, line 23 ("Sealing lid 22 and shut off valve 26, preferably constructed as one piece...").

The replacement drawing bears the legend "REPLACEMENT SHEET" in the top margin thereof, consistent with the requirements of 37 CFR 1.121.

In the claims, a minor typographical error in claim 13 has been corrected, in the deletion of the extraneous word "at."

New claims 29-38 have been introduced herein, to claim specific aspects of the invention. Independent claim 29 is of the same form as allowed claim 5, but recites, instead of decaborane, various of the source materials as described at page 9, lines 7-9 of the specification (boron, gallium, indium, antimony, phosphorus, arsenic, lithium and fluorine source materials). Each of claims 30-37 recites a specific one of such Markush group of source materials. Claim 38 is of dependent form under claim 29, and recites specific elements and compounds as the source materials, as described at page 9, line 7-9 of the specification. No new matter (35 USC 132) has been introduced, since all recited materials of claims 29-38 are fully disclosed in the original application disclosure.

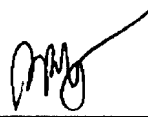

The addition herein of new claims 29-38 does not increase the number of independent claims or total claims beyond the numbers for which payment previously was made, since the October 12, 2007 Response canceled then-pending claims 15-24.

Nonetheless, if any additional fee or amount is determined to be properly payable, in connection with filing and entry of this Supplemental Amendment, the same hereby is authorized to be charged to Deposit Account No. 08-3284 of Intellectual Property/Technology Law.

2771-514

Favorable action is requested.

Respectfully submitted,

Steven J. Hultquist
